

Technical drawing of a cross-section of a multi-layered printed circuit board (PCB) assembly. The drawing shows a central core with multiple layers of prepreg and copper. The top layer is labeled "Stock" and has a thickness dimension of 2.50 (+0.00, -0.06). The core has a thickness dimension of 2.10. The bottom layer has a thickness dimension of 0.10. A cross-section line A-A is indicated. A dimension of 32 is shown for the width of the assembly. A detail view of a single layer is shown at the bottom right, with a thickness dimension of .005.
